

## Retail Price List June 2023 – April 2024

Welcome to our new price list, we've kept it simple and just listed our trees by name rather than including descriptions which can be viewed online on our web site.

We've started doing some grafting ourselves now but most come from Europe due to lack of scion wood and quality rootstocks. These small specialist suppliers in the Netherlands graft Heartnuts, Carya, Red Walnuts and some specialist Walnuts and Juglans. The commercial orchard varieties from France, USA etc mostly come from Bulgaria and are very robust Bare-Rooted trees lifted early in the winter to join trees we've grown on here.

Trees are grafted annually in January-May in northern Europe however in hotter climates they can be field bud grafted in summer so the commercial bare-root cultivars are often a year older, hence their size when we receive them.

We have some existing pot grown stock trees that are available now, but the vast majority of Juglans are now planted in beds after last summers drought and extreme temperatures. They will be lifted when dormant and sold bare-root, probably the end of November.

The exception are the Carya cultivars which are now all grown in air-pots with new trees available in September we hope. We have a small number of Carya cultivars available this year, the majority of Pecans were pre-ordered over the last couple of years but we will have some Hicans and Hickories available.

### **Delivery**

Local collection (CV36 5AR) by appointment (Tom Tame 07816 674854) is our preferred option as there is no chance of any damage or loss in transit, we also save the packaging (and the planet) and we get to meet others interested in walnuts! We can also deliver locally if required at 50p per mile within 20 miles.

***We offer a 5% discount for collection of 5 or more trees***

We offer a mail order service for **smaller trees only** and it is priced per parcel (nominally 1-3 trees depending on pot size). We use Fedex for mail order to the UK mainland, trees are normally 1-3 per box unless requested otherwise. Pots are secured in the box and contained in a large plastic bag to prevent leaks. We book collections as we need them so please allow 48 hours for despatch.

Eco 2-3 day     £11.50 per consignment for 1<sup>st</sup> box, subsequent boxes £5.5

Next day        £13.50 per consignment for 1<sup>st</sup> box, subsequent boxes £6.5

***UK non-mainland, NI, CI, Europe - Unfortunately at the moment we can't export cost effectively as each delivery needs to be inspected and charges make this too expensive unless there is a pallet of trees.***

***Any damage to a parcel must be notified on the delivery ticket and if possible a photo taken at the same time. Trees should be unpacked and watered the same day, we don't send them dry, but they will appreciate the drink.***
